

Quality Comes First

Your choice of cabinetry makes a personality-defining statement in your home. Selecting the right cabinets is an important first step because your cabinets should be just as functional on the inside as they are beautiful on the outside. Cabinets should withstand the demands of daily use and maintain their integrity throughout their lifetime.

That's why quality comes first at NorthPoint Cabinetry. Every detail is carefully considered to ensure our cabinets not only meet our high quality standards, but yours as well. Our commitment to quality combined with our on-trend finishes, door styles, and product depth and breadth are what make NorthPoint Cabinetry the perfect choice for your project.

IT STARTS WITH QUALITY WOOD

Just as a healthy tree needs strong roots to thrive, a quality cabinet requires premium lumber at its core. The quality of wood is of utmost importance, so our cabinets feature all-wood construction.

STRUCTURAL INTEGRITY

Meaningful yet hidden reinforcements—like solid wood corner blocks and strategically placed pocket screws—help reinforce the structural integrity of the cabinet. Take comfort that these well-constructed cabinets will stand the test of time.

THOUGHTFUL CRAFTSMANSHIP

These cleverly designed cabinets boast an innovative dovetail and hidden pocket screw construction that provides robust quality and quick, accurate assembly.

PRETTY ON THE INSIDE, TOO

NorthPoint Cabinetry features a clean and beautifully finished birch interior that enhances the cabinet's luxurious, high-quality appeal.

PREMIUM DRAWER BOXES

Dovetail joinery is the hallmark of high-quality drawer boxes. The UV finish of the drawer, dovetail construction, and smooth concealed slides are synonymous with quality furniture.

HARDWORKING HARDWARE

Our cabinets feature discreet compact hinges and concealed undermount slides. The hinges and slides have been third-party tested and exceed industry standards. The Premier Collection (shown) features full extension slides, allowing for easy access and use of the whole drawer.

STURDY SHELVES

NorthPoint Cabinetry shelves are constructed from an impressive 3/4" thick veneered plywood, preventing sagging over time under the weight of normal use. Shelf height is adjustable, so the homeowner can optimize storage space.

Expert Finishing

Count on consistent, high-quality finishing. Our state-of-the-art manufacturing facility utilizes a multi-step professional finishing process. This meticulous process maintains a high degree of color and application accuracy from cabinet to cabinet, ensuring a beautiful run of cabinets when installed.
